WALL STREET, TUESDAY, May 28-0 P. M. On 'Change to-day flour was weak and heavy. The wheat market was also depressed in face of a fairly active demand for export. Cotton was moderately steady, but exhibited considerable reaction from its recent strength. THE EXPORTS OF THE WEEK.

The aggregate exports of domestic merchandise from the port of New York to foreign ports for the week ending May 28, 1872, were \$3,702,647.

MONEY EASIER.

The little spasm of activity noticed in money on Monday was not repeated to-day, and the market reverted to its previous easy condition—that is, the stock brokers were accommodated readily at 6 per cent, and got a good deal of their money late in the day at as low as 5 per cent, the latter rate being the general thing on government collaterals. After accounts had been pretty well made up some lenders appeared to employ balances, but were unable to get better than 4 per. cent from the government dealers, who took the chance of relending the money more advantageously. Paper was as before quoted. Prime bankers' acceptances could be done perhaps at 6 per cent. ADVANCE IN FOREIGN EXCHANGE.

The raising of rates for sterling by one house late Monday afternoon was copied by all the leading and so-called "prime" firms to-day, and quotations now stand on the basis of 109% for sixty-day and 110% for sight bills. These are the desk rates, and are not a large fraction in advance of real business, which, so far as to-day was concerned, continued light. The foreign bankers are considerably exercised as to the future of the market, and are quite cautious about drawing until the upshot of the Supplemental Treaty negotiations is more discernible. With the undoubted active necessity for SOMETHING TO SHIP

to the other side, a new derangement of these negotiations would utterly check the manufacture of exchange from remittances of bonds and securities and throw the importers upon the mercy and resources of the foreign bankers. Just at this momont London is steadily selling Eric to New York, so that we are poorer off in exchange to the extent of this reimportation of stock. Some one shrewdly said, when the speculators of the United States were selling Eric short at 40 a 50, that London would sell us back the stock at 70 a 80. Considering the career of Eric the past few weeks the remark now sounds like prophecy. It is hardly necessary to say that a very happy evangelist is to be found in the vicinity of Broadway and Seven. teenth street.

The advance in sterling buoyed gold at the highwater mark of Monday, and imparted strength enough to the market to render it readily susceptible of a further advance of a quarter per cent as gave rise to a vague rumor that the Supplemental Treaty, as amended by the United States Senate, had been rejected by the British Cabinet. Indeed, the market was for a spell decidedly firm at 114, and as much as three millions was taken, buyer three days, by parties supposed to be connected with the pool and desirous of deferring the trouble of taking care of so much of an addition to the pool supply. With the evening cable telegrams from London came better assurances as to the fellcitous reception of the amended article, which gold reflected in a reaction to 113%, the final sales occurring at 113 15-16. The course of the market is

shown in the table :-10 A. M. 113¼ 8 P. M. 114 11 A. M. 113¼ 4 P. M. 114 12 M. 113¼ 4:95 P. M. 113½ 1 P. M. 113¼ 5 P. M. 113¾ 8 114 2 P. M. 114

 The little reaction at the close may also be traced
 to the lighter shipment on Wednesday, which, as estimated late this afternoon, will not exceed \$800,000-a sum of about \$500,000 being kept over for the Hamburg steamer of Thursday. A pursuance of this consideration leads to the opinion that the week's shipment will therefore show a marked diminution as compared with last week's. The Sub-Treasury disbursed \$448,000 for interest and in redemption of called bonds.

GOVERNMENTS STRONG. The government list was strong and to a trifling extent higher, the best selling prices of Monday being to-day's bid prices. The reaction abroad had no ill effect, for the reason that gold had advanced and because at quotations there were orders enough in the market to hold it against decline. ed, the government list seems to be carefully controlled by the gold pool, as a remote accessory to their more immediate plans. The following were the closing quotations:-United States currency sixes, 1174 a 117%; do. do., 1891, registered, 117% a 117%; do. do., coupon, 119% a 119%; do. five-twenties, registered, May and November, 113% a 114; do. do., 1862, coupon, do., 113% a 114; do. do., 1864, do. do. 113% a 114; do. do., 1865, do. do., 115 a 115%; do. do., 1867, registered, January and July, 116% a 146%; do. do., 1865, coupon, do., 116% a 116%; do. do., 1867, do. do., 117% a 117%; do. do., 1868, do. do., 117% a 117%; do. fives, of 1881, funded, registered, 112% a 113; do. do., coupon, 112% a 113; do. ten forties, registered, 111% a 111%; do. do., coupon, 112% a 112%.

The Southern State bonds were less active, with some specialties heavy. The Tennessees fell off a triffe at the boards, but closed strong. The South Carolinas were weak and declined one per cont on advices from Columbia asserting that the Legislature, despite the earnest agitation of the financial question, had neglected to make provision for paying the interest on the bonded debt. STOCKS LESS ACTIVE AND LOWER.

A duller feeling pervaded the stock market, and siness of the day was chiefly concerned with Pacific Mail and Erie. The wrangle in Pacific Mail occasions so many and so wide fluctuations that the professional class of speculators are quite enchanted with the numerous opportunities offered for rapid and profitable terms afforded by it is only rightly "struck." To-day the "bulls" the best of the contest-thanks to their early intelligence from Washington that the President had signed the Postal Appropriation bill-thereby making full law and putting beyond peradventure the increased subsidy for the Pacific Ocean mai service. Per contra, and as if to console the "bears" in Pacific, a strange and active weakness took possession of Erie and lowered it from 68 to 63%. The London market was credited with beginning the "break," but the lowest point reache at the close on the other side was hardly below the equivalent of 66, so that the further decline here was an extra performance on the part of the American actors of the Eric drama. It was, doubtless, a concentrated operation to achieve the general purposes of the formidable "bear" combination now working against the market, although one rumor had it that the decline was to be attributed to a reported singular offer from the controlling parties in Eng land to sell the election for a million and a half of dollars to any party here wishing the administra tion of the road. What with the rise in Pacific and the fall in Eric the rest of the market was unsettled and divided in its sympathetic tendencies, now falling the one and anon the other, the general result being, however, rather against the 'bulis," particularly near the close when Northwest declined to 73, Central to 97, Columbus, Chicago and Indiana Central to 38% and Union Pacific to 39. The injunctions agains Pacific Mail occasioned little discussion, and wer disregarded so far as they influenced speculation in the stock. An upward turn to 35 in Quicksilve and a temporary drop to 7 for Boston, Hartford and Erie were incidents in an otherwise tame move ment. The sudden death of Mr. Dimock, Presiden of the Atlantic Mail Steamship Company, involved no evil consequences to the stock, which was only quoted once during the day, viz., at 31. DEATH OF MR. A. V. DIMOCK.	

An active Wall street spirit has disappeared in the death of Mr. A. V. Dimock, President of th Atlantic Mail Steamship Company, and shief mem ber of the stock brokerage firm of Dimock, Myers & Co. Mr. Dimock left New York at the usual hou after business on Monday and died suddenly, nay instantly, as the train was journeying with him to his home at Elizabeth. His comrades in the ca were for a time under the belief that his sudder inanition was simply a fainting fit and applied the usual restoratives for such a contin gency, but were inexpressibly shocked soon after to discover that death was rea and not counterfeited. The deceased, though a young man, only thirty-seven years-his death, by a singular coincidence, occurring on his birthday had been concerned to a gigantic extent in rea estate and stock investments, and was the leading capitalist in building the city of Elizabeth, his
